22 WALMER RD. #404

TORONTO, ON M5R 2W5

From graduating with honours from the "Digital Communications" program at New Brunswick Community College to launching my own design company, my passion for design has led me into worlds of: computer gaming, television, print, and multimedia. My ambition is to keep growing and developing my craft with interesting and challenging projects.

## ACCOMPLISHMENTS

### **GEMINI NOMINATION** WEBSITE

Received a Gemini Nomination for a fun and educational kids website based on a tv special "Something From Nothing"

### **THE SOURCE BY CIRCUIT CITY** E-LEARNING PROGRAM

Directed the online sales training program. The project consisted of many hours of material involving several animated talking characters following intricate stage direction in different environments.

### **THE TOYOTA WAY** INTERACTIVE GAME

Designed an interactive online game teaching Toyota's guiding principles. The game's scenario puts the user in charge of running an automotive plant. Make adjustments to your priorities (quality control, number of staff, etc.) to improve customer satisfaction.

### **MEAL EXCHANGE** VIDEO

Assembled and directed a team (3 designers, musician, and writer) to produce a promotional video for the student-based charity fighting hunger. Helped charity double participation levels in universities across Canada

### **DYNAMIC CLINICAL CASE MODULES** WEB APPLICATION

Designed interfaces and animations for this initiative of McGill's Faculty of Medicine in conjunction with several other universities across Canada. This online program connects students and real doctors to help the students diagnose theoretical medical cases.

### **ROM DISCOVERY PATHS** WEBSITE

Developed an educational website to excite and entice kids into visiting the Royal Ontario Museum
